

Zaid Khan

MERN Stack Developer

+92 432 420212 | zaidwork76@gmail.com | Pakistan, Karachi

PROFESSIONAL SUMMARY

MERN stack (MongoDB, Express, React, Node.js) focused on building scalable, production-grade web applications. Skilled in developing RESTful APIs, implementing JWT authentication, and optimizing state management. Committed to writing clean, maintainable code that solves real business problems.

Eager to leverage my MERN stack expertise to develop scalable solutions for ambitious projects. I welcome opportunities to collaborate with engineering teams where I can immediately contribute while continuing to grow as a professional developer. Open to discussions about how my skills can address your organization's technical needs.

WORK EXPERIENCE

SkyTech Software House

Internship: Oct 2023 – Jan 2024

Front-End Developer (WordPress)

- Completed a 3-month internship, gaining hands-on experience with WordPress and web development.
- Worked on live projects, developing functional and user-friendly websites using WordPress.
- Continued working in the same position after the internship ended.
